

Kebisol (Potash Mobilizing Bacteria) - Bio Fertilizer

Kebisol is an organic certified Capsule bio-fertilizer developed from the selective strain of potash mobilizing bacteria *Frateuria freundi*. These bacteria facilitate the availability of potassium for plants. This formulation is completely eco-friendly and does not leftover any residues in the product.

Content: *Frateuria freundi* spores 1×10^8 CFU / ml.

Specifications:

Product Name	Kebisol
Type	Biofertilizer
HSN Code	3002
Content	Potash mobilizing bacteria
Color	Pale yellow
Dose	1 Strip/acre
Form	Capsule

Benefits:

- It enhances the potash uptake in plants leading to higher productivity
- It helps to improve the fruit quality, size, sugar
- It does not disturb the ecological balance
- It improves the plants immune system

Dose:

- Soil treatment: 1 Strip/acre through drip irrigation.
- Foliar application: 1 Strip per acre for 400 liters of water

Recommended Crops:

Cereals, Pulses, Oil seeds, Cotton, Vegetables, Fruit crops, Tea, Ginger, Turmeric, Cardamom, etc
