

## Naspupa NPK Bio-Fertilizers

Naspupa is an organic certified Capsule bio-fertilizer produced from selective bacterial strains which solubilize phosphate, and potassium and fix atmospheric nitrogen in the soil. This is a multifunctional product containing a mixture of beneficial bacteria that improves the nutrient uptake capacity of plants, fruit color & sugar content, plant defense system, and overall plant growth.

**Content:** Consortia of NPK facilitating bacteria spores  $1 \times 10^8$  CFU / ml.

### Specifications:

Product Name	Naspupa
Type	Bio fertilizer
HSN Code	3002
Content	N,P,K Consortia
Color	Pale yellow
Dose	1 Strip/acre
Form	Capsule

### Benefits:

- Naspupa is a Capsule consortium of Nitrogen fixing, Phosphate solubilizing and Potash mobilizing bacteria there by supplementing balance nutrition to the crops.
- It increases crop yield and improves soil health.
- It improves the soil pH and water holding capacity.
- It reduces the use of chemical fertilizers up to 30%.

### Dose:

- Soil treatment: 1 Strip/acre through drip irrigation.
- Foliar application: 1 Strip per acre for 400 liters of water

### Recommended Crops:

Grapes, other fruit crops, tea, vegetables, onion, garlic, etc.
