

Zion (Bio Zn) – Bio Fertilizers

Zion is an organic certified liquid biofertilizer developed from the bacteria Thiobacillus thiooxidans. This formulation fulfills zinc requirements of the crops in eco-friendly way. Along with zinc availability, this formulation protects paddy crops from khera disease.

Content: Thiobacillus thiooxidans spores 1×10^8 CFU / ml.

Specifications:

Product Name	Zion
Type	Bio fertilizer
HSN Code	3002
Content	Zinc Solubilizing bacteria
Color	Pale yellow
Dose	5 ml/lit or 1 -2 lit/Acre
Form	Liquid
Packing	500 ml, 1 lit, 5 lit & Bulk quantities

Benefits:

- It enhances the uptake of zinc which is essential micronutrient for the plant.
- It also activates plant hormones and improves photosynthesis which improves root growth & plant growth, soil health, and ultimately quality of produce

Dose:

- Soil treatment: 1 liter / acre through drip irrigation
- Foliar application: 2.5 - 5 ml per liter of water
- Seed/root dip treatment: 10 ml per kilogram of seeds

Recommended Crops:

Fruit crops, tea, vegetables, flowers and other crops .
