

Krishifert Grade I – Organic Micronutrient Fertilizer

Krishifert Gr. 1 is a micronutrient mixture consists of a fine blend of minerals comprising Zinc, ferrous, manganese, boron, copper etc. Krishifert mixture reduces the micronutrient deficiency of plant and helps to grow healthy and disease resistance plants. It is an organic certified mix micronutrient grade by ECOCERT.

Specifications:

Product Name	Krishifert Gr. 1	
Type	Micronutrient Mixture For Soil Application	
HSN Code	2833	
Content	Zn, Fe, Cu, Mn, B, Gypsum & Hydrolyzed proteins	
Color	White	
Dose	5 ml/lit or 1-2 lit/Acre	
Form	Powder	
Packing	5 Kg, 8 Kg, 10 Kg, 50 Kg & Bulk quantities	
Min. Order Quantity	1000 Kilogram	

Benefits:

- Krishifert is a micronutrient mixture for soil application.
- Increases the soil availability of primary and secondary nutrients for plants
- Is crucial for plant hormone balance and auxin activity and hence for growth, division of cell and production
- Essential for chlorophyll synthesis and improves photosynthesis
- Enhances flowering blooms and develops uniform ripening process and it is essential in sugar movement, cell division, and amino acid production
- Helps to increase the fruit size
- Increases disease resistance power of plants
- Increases recovery of sugar and weight in sugarcane crop.

Dose:

- 20Kg/Acre for horticultural crops
- 10Kg/Acre for vegetables and all other crops or as per recommendation of soil analysis report.

Recommended Crops:

Grapes, Mango, Pomegranate, Apple, Chickoo, Orange, Banana, Sugarcane, Tea, Tomato, Onion, Brinjal, Cotton and all vegetables as well as flowers plant
