Krishifert Liquid– Organic Micronutrient Fertilizer

Krishifert is a micronutrient mixture consists of a fine blend of mineral elements comprising Zinc, ferrous, manganese, boron, copper and molybdenum. Krishifert liquid mixtures reduce the micronutrient deficiency of plant and helps to grow healthy and disease resistance plants. It is an organic certified mix micronutrient grade by ECOCERT.

Specifications:

Product Name	Krishifert Liquid	
Type	Micronutrient mixture for Drip and foliar Application	
HSN Code	2833	
Content	Zn, Fe, Cu, Mn, B, Gypsum & Hydrolyzed proteins	
Color	White	
Dose	2 lit/ Acre, 2ml/ lit.	
Form	Liquid	
Packing	500 ml, 1 lit, 5 lit & Bulk quantities	

Benefits:

- Krishifert is a micronutrient mixture for soil application.
- Increases the soil availability of primary and secondary nutrients for plants
- Is crucial for plant hormone balance and auxin activity and hence for growth, division of cell and production
- Essential for chlorophyll synthesis and improves photosynthesis
- Enhances flowering blooms and develops uniform ripening process and it is essential in sugar movement, cell division, and amino acid production
- Helps to increase the fruit size
- Increases disease resistance power of plants
- Increases recovery of sugar and weight in sugarcane crop.

Dose:

- 2 lit /Acre for drip application
- 1- 2 ml /lit of water for vegetables and all other crops or as per recommendation of soil analysis report.

Recommended Crops:

Grapes, Mango, Pomegranate, Apple, Chickoo, Orange, Banana, Sugarcane, Tea, Tomato, Onion, Brinjal, Cotton and all vegetables as well as flowers plant
