

## Ami Mix (Amino chelated micronutrient mixture) –

### Organic Micronutrient Fertilizer

Ami mix micronutrient fertilizer contains chelated form of amino acid based micro elements. It contains the vital nutrients in readily available form, which are essential nutrients for healthy growth of plants. Ami Mix consists of all essential & non-essential amino acids (Organic Nitrogen) with mineral. It supplies organic nitrogen as well as mineral to the plant. It is an organic certified (ECOCERT) mix micronutrient grade.

#### Specifications:

Product Name	Ami Mix	
Type	Micronutrient mixture for Foliar Application	
HSN Code	2833	
Content	Zn, Fe, Cu, Mn, B & Hydrolyzed proteins.	
Color	Green	
Dose	0.5 -1 gm/liter	
Form	Powder	
Packing	250 gm, 500 gm, 1Kg & Bulk quantities	

#### Benefits:

- Ami mix is a micronutrient mixture for foliar and drip application.
- Increases the availability of Micronutrients for plants.
- It supplies organic nitrogen as well as other minerals to plant. Amino acids present in Ami Mix forms a complex with mineral ion which absorbed quickly & easily by plants.
- These all essential amino acids & minerals, which are precursors of phytohormones & other growth substances, accelerate the Metabolic & Physiological activity of plant.

#### Dose:

- 0.5 – 1 gm/lit of water for foliar spray
- 500 gm/Acre for soil application or as per recommendation of soil analysis report.

#### Recommended Crops:

Grapes, Mango, Pomegranate, Apple, Chickoo, Orange, Banana, Sugarcane, Tea, Tomato, Onion, Brinjal, Cotton and all vegetables as well as flowers plant.
