

Addon Sil - Adjuvant, Spreader, Sticker

Addon sil is silicon based non-ionic spreader used to improve the efficiency and effectiveness of all the spray solutions. It lowers down the surface tension of the spray solution, thereby increases the activity of spreading and penetrating of the spray solution. Addon is compatible with all the crop care solutions. It works as a sticker, spreader, rain fastener, activator and adjuvant which ultimately reduces cost and improves profitability.

Specifications:

Product Name	Addon Sil	
Type	Silicon based Surfactant, Adjuvant, Spreader, Sticker.	
HSN Code	3824	
Content	Trisiloxane compounds	
Color	Transparent	
Dose	0.2 ml/ lit	
Form	Liquid	
Packing	50 ml, 100ml, 250 ml, 500 ml, 1 lit, 5 lit & Bulk quantities.	

Benefits:

- Reduces the rain runoff losses.
- Higher and faster absorption rate.
- Uniform and quick spreading of spray solutions within few seconds of spray on the leaves.
- Spreads quickly, carrying insecticide into the inaccessible sites inhabited by pest and to those parts of the crop canopy prone for infection by diseases.
- Improves bio-efficacy of the spray solutions and can reduce the spray volume.
- Improves bio-efficacy of the spray solutions and can reduce the spray volume.
- High compatibility thus can be applied with broad range of agrochemicals.

Recommended Crops:

Can be applied to all crops and with all crop care solutions.
