

Vision - Organic Silica

Vision is Certified Organic product and rich source of silica extracted from rice husk. It acts as micronutrient. With the use of Vision, plant gets protection from insect and fungal attack. The silicon film formed on plant leaves controls transpiration of water. Vision improves root zone and provide effective absorption.

Specifications:

Product Name	Vision	
Type	Organic Micronutrient/ Silicon	
Color	Green	
Content	Colloidal Silica, Basil extract	
Dose	1.5- 2 ml/ lit	
Form	Liquid	
Packaging	100ml, 250 ml, 500 ml, 1 lit, 5 lit & Bulk quantities	

Benefits:

- Rich source of silicon micronutrient
- Forms thin layer on plant leaves
- Thereby prevents the transpiration (water loss through evaporation)
- Due to silicon thin layer, plant leaves become strong and prevent plant from sucking pests like thrips, aphids, jassids, mites, whitefly etc.
- It also controls plant from fungal diseases like downy mildew, powdery mildew and blight.
- Soil application of Vision improves root zone which enhance water and nutrients absorption.
- It also increases disease resistance power of plants.

Dose:

- 1.5-2 ml/lit of water for foliar spray.
- 2 ml/lit of water for soil application.

Recommended Crops:

Grapes, Mango, Pomegranate, Apple, Chickoo, Orange, Banana, Tea, Tomato, Onion, Brinjal, Cotton and all vegetables as well as flowers plant.
