

## Oracle - Organic Fungicide

Oracle is an organic certified liquid base formulation made up from crab extract. It acts as fungicide, viricide, and bactericide. It also shows nematocidal activities. Crab extract containing Chitin and chitosan are naturally-occurring compounds that have potential in agriculture with regard to controlling plant diseases. These molecules were shown to display toxicity and inhibit fungal growth and development. They are active against viruses, bacteria and other pests.

### Specifications:

Product Name	Oracle	
Type	Organic Fungicide/ Viricide/ Bactericide/ Nematocidal	
Color	Black	
HSN Code	3808	
Content	Crab Extract (Chitosan)	
Dose	1.5 -2 ml/ lit of water for foliar spray.	
Form	Liquid	
Packaging	50 ml, 100ml, 250 ml, 500 ml, 1 lit, 5 lit & Bulk quantities	

### Benefits:

- Organic Certified Fungicide
- To control fungal diseases like downy mildew, powdery mildew, Blight etc.
- To control viral diseases like wilt & leaf curl virus
- To control bacterial diseases like bacterial blight (Xanthomonas)
- It is effective against soil borne diseases and pest like nematode, Fusarium, Botrytis etc
- To control root rot and stem rot diseases
- To increase germination of seeds, root development and increases the disease resistance power of plants

### Dose:

- 1.5-2 ml/lit of water for foliar spray
- Mix 2-3 ml per liter of water and drench 150-500 ml of that solution to each plant as per stage to control nematode, root rot, stem rot and other soil born diseases
- Mix 5- 10 ml oracle with 1 lit of water and soaks seedlings for 10 minutes in that solution and dries under shed for half an hour before sowing/plantation..

### Recommended Crops:

Grapes, Mango, Pomegranate, Apple, Chickoo, Orange, Banana, Tea, Tomato, Onion, Brinjal, Cotton and all vegetables as well as flowers plant.
